

VOC COMPLIANT FAST WAX WAXES

DESCRIPTION:

Presta **VOC Compliant Fast Wax®** is a liquefied paste wax manufactured with premium, natural and synthetic ingredients. It can be applied over 24-hour old clear coat and single-stage finishes without risk of die back, because it creates a breathable film that permits solvents to escape. If used in a body shop, detail area should be isolated from paint and prep areas. **VOC Compliant Fast Wax** meets 2005 California VOC standards.

DIRECTIONS:

Shake well before using. Product separates quickly and needs to be shaken before and during use to produce outstanding results. Apply product to surface with wax pad. Let product dry to a haze. Entire vehicle may be treated. Wipe off haze with a clean, Presta Micro Fiber detailing cloth (# 800135). **VOC Compliant Fast Wax** may be used in direct sunlight, one panel at a time.

FEATURES & BENEFITS:

- Produces a brilliant, high-gloss shine
- Provides paste wax protection with liquid wax ease
- Great for marine applications
- Makes detailing fast and easy
- VOC Compliant formula

PACKAGE SIZES:

Quarts	Part # 134132
Gallons	Part # 134101

Non VOC Compliant	
Quarts	Part # 132532
